

North Fork

Square Footage:

Lower Level: 2360 square feet

Main Level: 2360 square feet

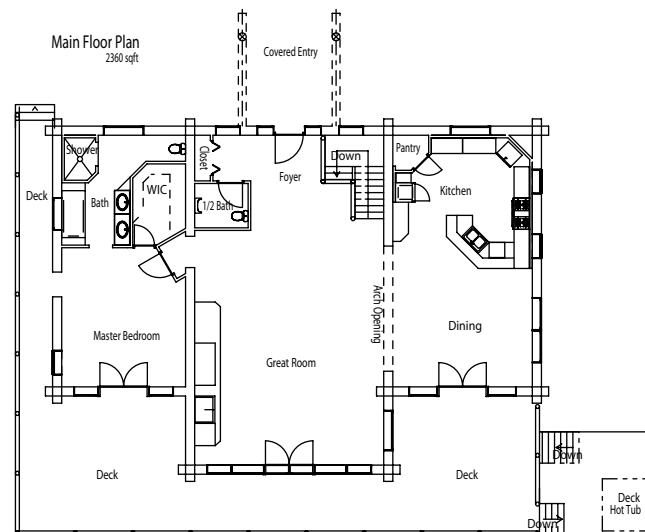

Total: 4720 square feet

(with finished lower level)

You can imagine the stream gurgling. It's calling you to come out and listen. This Caribou design is one of the most popular styles. With windows that make you feel like you're already outside, this new log home will let you enjoy the view. It draws you to the outdoor life you've worked so hard to enjoy. The circular windows in the gables give a great change of pace and carry through to the circle-tops in the dormers. Large open spaces and a soaring ceiling give you all the space you need to entertain family and friends in your comfortable little piece of wilderness.

Options:

Add an exterior spiral staircase off the front of the deck for easy access to the lower level. Why not add an outdoor fireplace? You're going to be outside anyway.
