

Lakeside Lodge

Square Footage:

Main Level: 1572 square feet

Upper Level: 950 square feet

Total: 2522 square feet

We know it looks huge! That's what a wraparound covered porch will do for a relatively simple plan. It is written... when you own a piece of the American Wilderness, you must create spaces to get outside and enjoy it. This Caribou design draws you outside to enjoy the wilderness under cover. Whether you're looking at the ocean, a favorite stream, or overlooking the valley below, this home is for people who like to get outside. What do you appreciate more than being outside? Knowing how it's going to feel when you get inside and snuggle in front of that roaring fireplace.

Options:

SaferWood™ Decking can save the house if you're site is hard for fire fighters to get to. SaferWood™ products are available on all Caribou Creek Log Homes.
