

## Woods Log Cabin

Square Footage:

Main Level: 616 square feet

Loft Level: 318 square feet

Covered Porch: 110 square feet

Total: 1044 square feet

Whether you need a cabin for your guests, vacation spot, rental, or primary home, this simple and versatile layout can make it happen. The vaulted ceiling with its exposed log roof system and the open loft make the living area seem larger without losing the cozy cabin feel. The Main Level bedroom is large enough to accommodate a queen size bed. The kitchen and bath are small, but designed in such a way as to maximise efficiency and space. The laundry nook is large enough for a standard size washer and dryer. Upstairs has a generous 180± square feet of full headroom space, plus an additional 138 square feet of low headroom space perfect for storage. Add the optional wood stove, and you have the ideal mountain cabin retreat!
